

## **Newsletter No 11 MARCH 2010 – NON-TOXIC UPDATES**

Dear Printmakers

Since I published my last newsletter in November 2009 it is time to bring the last news from my Grafisk Eksperimentarium.

### **MY BOOKS**

In February 2010 I published the new and revised 2<sup>nd</sup> edition of my handbook of Non-Toxic Intaglio in Spanish: "Manual de Grabado No-Toxico." It was formerly published by the University in Granada, Spain, but now I have published the book at my own expense in Spain. This will secure that it is far easier available for Spanish speaking printmakers. See <http://www.grafiskeksperimentarium.dk/es/index.html> - The book is now available in English, French, Dutch and Spanish. Next option is to make an Italian version of the book.

### **MY SUMMER WORKSHOPS IN SPAIN 2010:**

My international summer workshops in my paradise in Spain are already planned – there are still places for 3 printmakers on each of the workshops:

**July 3rd - July 11th 2010** (still space for 3 printmakers)

or

**July 31st - August 8th 2010** (almost fully booked – 1 place left)

you will find more information here: <http://www.grafiskeksperimentarium.dk/en/Workshops.html>

The workshops are attended by international printmakers. During the last 3 years the workshops have been attended by printmakers from Argentina, Mexico, United States, Faroe Islands, Iceland, Norway, Sweden, Denmark, UK, Belgium, Germany, Italy, Holland, France, Andorra, Spain and Pakistan.

### **MY HOMEPAGE**

With my ambition to create a homepage that gives the answer to any subject regarding the Non-Toxic Intaglio system, I have now updated the site once more:

### **New Discussion Forum**

I have created a new FORUM for non-toxic printmaking and I invite printmakers from all over the world to contribute to a serious debate regarding non-toxic printmaking.

### **Non-Toxic Intaglio Step by Step**

Audio-Visual instructions on how to apply the different etching grounds, how to expose photopolymer film, how to etch etc. On my homepage you will now find links to a complete going-through of all techniques regarding the working with Non-Toxic Intaglio. On you-tube I saw a lot of amateur videos about different aspects of non-toxic intaglio which makes no confidence to the system. So I decided to bring parts of my DVD program "NON-TOXIC INTAGLIO – Step by Step" – See:

<http://www.grafiskeksperimentarium.dk/en/Stepbystep.html>

The film exists only in English at the moment, but we are working on a Spanish version at the moment.

### **New Language Versions**

At the moment we are working on a German and an Italian version of my website. In the coming months it will be published continuously.

If you are in doubt about anything – please send me a mail!

My newsletters are published in English and Spanish language versions – if you do not want to receive my newsletters in the future – just tell me by mail.

I wish you all a happy spring time

Henrik Boegh
